ABOUT

Results-driven web developer with 1 year of experience in creating dynamic and user-friendly websites. Proficient in a wide range of web development technologies, including HTML, CSS, JavaScript and Node.js. Strong problem-solving skills and a passion for staying up to date with the latest industry trends. Proven ability to collaborate with cross-functional teams to deliver high-quality web solutions.

PROJECT

- Portfolio Website
  link: https://mitul2711.github.io/my_site.github.io/
  My portfolio website showcases my skills, projects and experience as a web developer. It present a professional online presence to impress potential employers, clients and collaborators.

- Weather App
  link: https://mitul2711.github.io/weather-app.github.io/
  The Node.js weather app fetches real-time weather data using APIs and presents in a user-friendly interface. It shows current conditions, hourly/daily forecast and location-based updates. It keeps users informed about local weather conveniently.
